

November 2017

Dear President,

[Request] Recruitment for the 2017 fiscal year Toyama Prefectural Scholarship

I hope this letter finds you well.

In fiscal 2015, our prefecture established a special scholarship program jointly with local businesses interested in hiring study abroad students from the ASEAN region. This program pays for the students' graduate school tuition and daily expenses, and aims to have them work at the sponsoring company once they graduate.

Through this program, we are currently looking for Vietnamese students. We would like to ask for your cooperation with recruitment from the many bright students in your university.

Furthermore, officials from our prefecture would like to visit your university and directly explain the scholarship to students and professors. We would greatly appreciate your cooperation with these efforts.

Yours Sincerely,

Takakazu Ishii,
Governor of Toyama Prefecture, Japan

石井隆一
